THE AMERICAN NEWS.

Interesting as has been the situation a attanooga for the last few days, public atntion has once more been forcibly recalled the important and startling events that are nspiring in Virginia. Lee has paused in s retrograde march towards Richmond and ning on Meade, who in the face of his 1 Yoke Working Oxen owerful and dangerous opponent has cakened his forces by sending two corps armee to the aid of Rosecrans, is pressing m with irresistible vigor. Crossing the Rapian he endeavored to turn Meade's right ank, and thus force him to accept battle ith the river in his rear; to avoid this the atter hurriedly recrossed the Rappahannock nd retreated towards Manassas, closely ollowed by his energetic antagonist. After o heavy skirmishes between the rear and dvanced guards of the two forces, the army f the Potomac has once more taken up its ound on Centreville Heights with the amous field of Bull Run in its front. Gen. ee has despatched Hill's corps in the direcion of Leesburg, whether as a feint or to repeat, for the third time, the passage of the cotomac, and to levy contributions on the wealthy towns and farms of Pennsylvania remains to be seen. Meanwhile a great battle on the old ground is daily expected, and on its results depend, in a great measure the destiny of the campaign. The city of Washington, as may well be expected, is in a state of great excitement at the near approach of the redoubtable rebel general. Affairs are comparatively quiet at Chatta

nooga, although the position of Rosecrans is still sufficiently critical; his connection with Burnside is completely broken, and the rebel batteries from Lookout Mountain are shelling his intrenchments. Matters in that quarter will, however, doubtless remain in statu que till the result of the position at Centreville is declared. From Charleston the news is interesting,

although not possessing great importance; it is said that the Federal "Ironsides" has been disabled by a torpedo, and that the rebel rams will take advantage of this, combined with the absence of three of the Monitors, to endeavor to raise the blockade. A striking feature in the news is the un usual activity of the guerrillas on all parts of the frontier. In Missouri, they are even threatening the state capital, while in Kentucky, Tennessee and Arkansas, their audacity is unbounded. The South is certainly putting forth her utmost efforts and demonstrating in the most practical manner

PUBLIC ENTERTAINMENTS

that her energies are not yet exhausted.

Situated as Victoria is, with only a sparsely settled back country-we depend almost entirely on the Sound trade and an occasional ship visiting us, during the winter months. Cariboo, which gives impetus to trade during the summer months, is comparatively speaking depopulated in the winter season. The hardy miner, wearied from toil is compelled from the nature of the climate, to seek a temporary residence elsewhere. It is therefore of importance to the people of Victoria to endeavor by all legitimate means to carry out any measure likely to add to the comfort of the miner, both socially and morally during his winter sojourn in our midst. Most countries have their places o entertainment; in this respect San Francisco is not a whit behind any other country. She has her theatres, concert halls, mechanics and other institutions, to cater to the appetites and whimsicalities of all, so that the most fastidious pleasure seeker can be accommodated without traveling to the Eastern States to obtain it. We would therefore suggest to the public

the organization of a mechanics' institute, where the miner as well as the people of Victoria generally, could obtain some rational amusement without going abread

The steamer Sierra Nevada, from San Francisco direct, arrived yesterday at 7:30 A. M., bringing the following important desnatches from the seat of war :

patches from the seat of war:

New York, October 13—The steamer Connecticut, from Hilton Head 9th, reports that the rebels, on the night of the 6th, sent torpedoes attached to a raft from Charleston to the Ironsides, off Fort Moultric, which exploded under her bow, deluging her decks with water, putting out the fires, killing Ensign Howard, and wounding several seamer, but doing the vessel no damage. The Ironsides remains off Fort Moultrie. The Monitors are doing picket duty off Fort Sumter. tors are doing picket duty off Fort Sumter. General Gilmore is still erecting batteries on

Morris Island.
The Times' Morris Island correspondent, of The Times' Morris Island correspondent, of October 2th, says that so much damage was done the Ironsides by the rebel torpedo, that it is seriously contemplated to send her north for repairs. Our naval picket boats were attacked at the same time, and it was thought that the rebels would soon make a demonstration on our fleet with their rans, as three of our Monitors are absent. The two detailed to remove harbor obstructions had arrived. CAIRO, October 14 .- We have Memphi

CAIRO, October 14.—We have Memphis dates to the 12th. A force of rebel cavalry, variously estimated at from 8,000 to 15,000, has been threatening the Memphis and Charleston road for some days, and a portion of Gen. Hurlburt's force has been constantly skirmishing with them. On Sunday merning several culverts were destroyed in the vicinity of Georgetown and Collierville, and during the forenoon an attack was made by Chalmers with cavalry and artillery. He is reported to be 3,000 strong, and in garrison at the latter place, and we succeeded in driving them into their fortifications. During the fight, Gen. Sherman, with a detachment of regulars, arrived and engaged the enemy, and fight, Gen. Sherman, with a detachment of regulars, arrived and engaged the enemy, and repulsed him with heavy loss. New York, Oct. 15—A Morris Island letter to the Tribune contains the following:

Thursday, Oct. 8—To-day has been a very severe day at Wagner—more so than any experienced since our occupation of that fort. The firing has been mostly from the James Island batteries. There were 3 killed and 12 wounded during the day. One shell exploded in the door way of the bombproof, killing 1 and wounding 5.

October 9th—Fort Moultrie, Simpkins and Bragg fire continuously at our working parties in Forts Wagner and Gregg. They have the exact range and plump their shells and shot with deadly accuracy into our works. They are practicing to fire almost simultaneously so as to make the cover of our men less available against shot coming in divers directions, almost at the same moment. The bomb-proofs are excellent as a shelter to the men from most of the missiles, but still casualties are numerous. One of our 200-pounder batteries that has been silent for a week re-opened this morning on Forts Sumter, Johnston, and others.

It was occasioned by the refusal of the Georgia militia to remain longer in active service. They represented that they had volunteered only to drive the Federals out of their own State. Bragg refused to grant them permission to return home, and they stacked arms. Longstreet's men were ordered into line, and discharged several volleys at the deserters, sixty of whom were killed and two hundred badly wounded.

The Washington is seetling with excitement over current rumors. It is fully believed that a battle has commenced, and that Gen. Meade had retreated to obtain a choice of battle-field, desiring to reach Manassas, it is believed he has not superior numbers; yet no one would be surprised to hear that the rebels had been heavily reinforced. All sorts of rumors, of course, are affoat. Gen. Meade's forces are much stronger than generally supposed. The Washington correspondent of the Commercial says: For some teason, certainly not because of any bad news to suppress, the War Department yesterday resumed the transmission of intelligence bearing upon the rebel or Federal situation in Virginia.

ENGLISH SUMMARY We have received our files of papers to th

31st August; the news market is so to speak in a state of stagnation, and the English papers are filled with long reports of extraordinary trials and letters and discussions upon the American question; some of these are of considerable interest. Mr. Nassau W. Senior writes upon the Confederate steamers now building in British yards, and endorses the opinion, editorially expressed in the Times of the 28th August, quoted in our last summary, and says and interest to prevent these vessels from leaving the yards, for if they once get out and receive Confederate commissions we shall have no right to arrest them. shall have no right to arrest them. Mr-Senior says that he is informed that the ships in the Mersey are ready for sea, and an acquaintance of his own passed the "Fiorida" the week before the date of his letter, hovering in the Irish Channel for the purpose of joining and arming them, he touches upon the effect that torpidity will produce on the feelings and conduct of the Federals, and saye that from conversations held with A mericans Bragg's army.

New York, Oct. 16—The telegram to the Tribune from Chattanooga, 18th, says since the 7th no hostile demonstrations have been made on our front. Yesterday our guns compelled Bragg to remove his headquarters from Mission Ridge, and drove away the whole signal corps on Lookout Mountain. The damage done the Nashville and Stevenson road by Wheeler has been repaired and trains are running regularly. A rebel picket came into our lines yesterday, and reports the enemp building pontoons. This indicates an attempt to dislodge us from our position by a flanking movement across the river, which will be provided against by Roscerans. There has been no communication with Gen. Burnside for several days.

The steamer Columbia, from New Orleans on the 10th, has arrived. The only item of interest in the papers is found in the rebel Mississippian, which says that the Federals would advance as soon as reinforced.

The transport Union arrived to-day, and reports that on the 11th she captured the English blockade runner Spaulding, with a report of the service of

21st August. The crew wore landed at Brest.

Her Majesty's steam sloop "Geyser," Commander Pechell, had been waiting unsuccessfully from the 21st to the 28th August for intelligence of the steamship "Florida," which had been burning vessels off the west coast of Ireland; she had returned to Plymouth to take in water, and when replenished was to resume her duty off Ireland. the Sun Fire Insurance, at the Croydon Assizes, before Baron Bramwell, is at last concluded, having occupied five days, the jury returning almost directly a verdict for the plaintiffs, for £4,277; the judge summing up at great length, and calling the attention of the jury to the improbability of a man committing the three great crimes of fraud, arson and murder, for such were in fact the charges brought against Wolley, against whose previous life nothing more could be alleged than that "he did not pursue quite so steady a course as one of mercantile habits might have done, and was at one time at an hotel, and at another time acting at a theatre, and glad of a benefit."

The pirates Alabama, Conrad and Georgia had visited ports near the Cape of Good Hope, and captured and bonded several vessels. The steamer Vanderbilt left St. Helena on the 20th of August in pursuit. The Alabama is reported to have captured 48 prizes.

Mason's letter to Earl Russel, on his withdrawal from Landon, is published.
